

# Web Development, Hosting & E-commerce Services

Forshock has provided web development services for small businesses and individuals in Southern California since 1999. In that time we have helped many of our clients with web hosting, design and e-commerce services. Using the latest tools and techniques, we can create or update your website to reflect what your business is all about to your on-line customers.

## >> Business Websites

Forshock can create an appealing, easy-to-use website for your small business in as little as 48 hours! Informational websites that get the same information to your potential customers as you do in person. Choose to maintain your content yourself or allow Forshock's trained and experienced staff to maintain the content of your website.

Prices start as low as \$295 for a complete business website!

## >> E-Commerce & On-line Shopping

Whether you are selling just a few products and need a simple, uncomplicated order management shopping cart or a full-featured, feature rich shopping platform; we can help. We have experience with some of the largest shopping systems available including Magento, OpenCart, TomatoCart, osCommerce, ZenCart, NopCommerce and more.

Prices starting at \$495 with no transaction fees!

## >> Software Development

Custom websites utilizing the latest in web technologies can create a captivating experience for your new customers. Interacting with potential customers is important to get your mission accomplished. Our experienced staff can create virtually any application from database systems, customer relations and shopping systems to member-driven social sites. Create dynamic ASP, .Net, PHP and database connected website applications for your business.

## >> Website Hosting

Run your business website or e-commerce store on reliable cluster-based hosting at one of the nation's best data-centers with multi-drop fiber connections. We offer Windows and Unix hosting plans supporting PHP, ASP, MySQL, Microsoft SQL, Perl and more. The easy to use control panel allows you to customize your package, manage email and features.

Basic Features	Shop	Standard	Portfolio
Storage	500MB	500MB	25MB
Traffic	20GB	20GB	1GB
Emails	200	200	3
Platform	Windows or Unix	Windows or Unix	Unix Only
SSL Security	Yes – Included	Yes – Optional	No
Price	\$15 per month	\$10 per month	FREE

Shop vs Standard: Shop packages include (1) IP address, SSL certificate, additional mailing lists and additional FTP accounts. Contact us for more details and information.
